Howdy!

On behalf of Texas A&M University, the local organizing committee, the symposia organizers and the Society of Engineering Science officers and board of directors, welcome to Texas A&M and the 52nd Annual Technical Meeting of the Society of Engineering Science. We look forward to this annual meeting continuing the tradition of providing an outstanding forum for exchanging ideas and insights in all fields of engineering science.

This year more than 600 abstracts will be presented in a broad range of focus areas including: mechanobiology, mechanics of nanoscale phenomena, soft materials, mechanics of fracture and damage, engineering education, architected materials, manufacturing and fluid mechanics. We hope that you will find this meeting both intellectually stimulating and personally enjoyable.

This year’s medalists will be recognized at the conference banquet: Mary Boyce, recipient of the 2015 Engineering Science Medal; L. Gary Leal, recipient of the 2015 Taylor Medal; Huajian Gao, 2015 recipient of the Prager Medal; and Liping Liu, recipient of the 2015 Young Investigator Medal.

We thank our sponsors, the symposia organizers, and all of you for making this meeting a success. We are honored and pleased to be your hosts and hope that you enjoy your time at Texas A&M.

Sincerely,

Dimitris C. Lagoudas
Senior Associate Dean for Research
Associate Vice Chancellor for Engineering Research
Deputy Agency Director,
Texas A&M Engineering Experiment Station

Alan Needleman
Professor, Department of Materials Science and Engineering
TEES Distinguished Research Professor

</table>
THE SOCIETY OF ENGINEERING SCIENCE (SES) TECHNICAL MEETING is held annually to foster and promote the exchange of ideas and information among the various disciplines of engineering and the fields of physics, chemistry, mathematics, bioengineering, and related scientific and engineering fields. The site for the 2015 SES 52nd Annual Technical Meeting will be on the Texas A&M University campus in College Station Texas at the Memorial Student Center (MSC). The MSC is a prominent symbol of the University’s strong history and tradition. It stands as a tribute to Aggies who have given their lives for our country. April 21, 2012, after undergoing an extensive renovation and expansion, the MSC reopened making it one of the premier student unions in the country.

Today the MSC houses three art galleries, includes multiple dining facilities, state-of-the-art meeting and ballroom areas, the Barnes & Noble Bookstore at Texas A&M University and The Flag Room. The Flag Room, also known as the “Living Room of Texas A&M,” is a place where students enjoy the welcoming tones of the baby grand piano and meet, lounge, study and sleep among the columns, globes, cowhide benches and chandeliers within an open atmosphere.

Since the MSC is dedicated to all Aggies who have died in any war, past, present or future, it is a tradition to remove you hat before entering the building and not walk on the grass surrounding it. The Hall of Honor on the north side of the building provides a fitting tribute to those Aggies who died while serving our country. Here visitors can see the faces and read the stories of the seven Aggies who received the Medal of Honor, the nation’s highest military award.

We acknowledge support of Texas A&M University Dwight Look College of Engineering, the Department of Aerospace Engineering, the Department of Material Science & Engineering and Texas A&M Engineering Experiment Station (TEES). In addition we acknowledge the National Science Foundation (NSF) for offering support for the student poster competition.

Finally, this conference would not have been possible without the outstanding organizational contributions by Kristle Comley, Hanna Prichard, and Miriam Brown, the MSC Conference Services, the Bryan/College Station Visitors Bureau and the many staff and students who served as volunteers.
CONFERENCE CO-CHAIRS:

Dimitris C. Lagoudas,
Senior Associate Dean for Research
Associate Vice Chancellor for Engineering Research
Deputy Agency Director, Texas A&M Engineering Experiment Station

Alan Needleman
Professor, Department of Materials Science and Engineering
TEES Distinguished Research Professor

TECHNICAL PROGRAM CO-CHAIRS:

Amine Benzeraga, Aerospace Engineering, Texas A&M University
dwight Look College of Engineering

John Criscione, Biomechanical Engineering, Texas A&M University
dwight Look College of Engineering

Arun R. Srinivasa, Mechanical Engineering, Texas A&M University
dwight Look College of Engineering

POSTER COMPETITION CO-CHAIRS:

Zach Grasley, Civil Engineering, Texas A&M University,
dwight Look College of Engineering

Zoya Heidari, Petroleum and Geosystems Engineering,
University of Texas at Austin, Cockrell School of Engineering
University Dwight Look College of Engineering

Anastasia Muliani, Mechanical Engineering, Texas A&M University
dwight Look College of Engineering

FOCUS AREA ORGANIZERS:

MECHANOBIOLOGY
Bin Chen & Taher Saif

MECHANICS OF NANOSCALE PHENOMENA & MULTI-FUNCTIONAL MATERIALS
Haiyan Wang & Xinghang Zhang

MECHANICS OF SOFT MATERIALS
John Criscione & Ellen Arruda

MECHANICS OF FRACTURE AND DAMAGE
Amine Benzeraga & Jay Walton

LIGHT WEIGHT STRUCTURES: DESIGN, MECHANICS, AND CONTROL
Richard Malak & Zach Grasley

ENGINEERING EDUCATION
P.K. Imbrie, Sheldon Wang & Marvin Adams

ARCHITECTURED MATERIALS & MANUFACTURING
Arun R. Srinivasa & Ibrahim Karaman

FLUID MECHANICS
Sharath Girimaji & Rodney Bowersox

LOCAL ORGANIZING COMMITTEE:

Marvin Adams
David Allen
Sharath Girimaji

Ibrahim Karaman
Richard Malak
Jay Walton

Haiyan Wang

PROGRAM COORDINATOR:

Kristle Comley

</table>
**SUNDAY, OCTOBER 25**

**Welcoming Reception/Registration**
*Rudder Tower*

Join us in The University Club on the 11th floor of Rudder Tower for a meet & greet after stopping by the registration desk on the 1st floor of Rudder Tower to complete your on-site check in/registration.

Light refreshments will be provided. This is a come and go event, and will run the course of 2 hours during registration between 5 p.m.–7 p.m.

---

**MONDAY–WEDNESDAY, OCTOBER 26–28**

**Breakfast and Lunch**
*Bethancourt Ballroom (2300), Memorial Student Center*

Join other conference guests daily for a continental breakfast and a buffet lunch. This is a great networking opportunity to interact and create connections with other conference attendees.

Continental breakfast will be available daily in the Bethancourt Ballroom from 7 a.m.–8 a.m.

Lunch will also be available daily in the Bethancourt Ballroom. Wednesday’s Grand Finale Lunch with feature a special guest.

---

**TUESDAY, OCTOBER 27**

**Student Poster Competition**
*Gates Ballroom (room 2400), Memorial Student Center*

View the student posters and mingle with other conference guests while posters are being judged from 5 p.m.–7 p.m.

**Reception**
*Bethancourt Ballroom Prefunction Area (room 2300)*

The reception will be from 6:30 p.m.–7:30 p.m with passed appetizers and a cash bar. A three piece jazz band will accompany the event throughout dinner.

**Banquet**
*Bethancourt Ballroom, Memorial Student Center (room 2300)*

This event is available to conference guests who have pre-registered and purchased a banquet ticket. If you are interested in attending the banquet, please visit the registration desk for more information. SES medalist will be announced and recognized. This event will be recorded.

The Banquet dinner will be from 7:30 p.m.–10 p.m. Buses will be available to transport you back to your hotel at the conclusion of the event.

**Student Social**
*Gates Ballroom (room 2400), Memorial Student Center*

All students attending the conference are invited to gather in the Gates Ballroom from 6:30 p.m.–7:30 p.m for a meet and greet with other students from across the nation. Get to know your peers and start new friendships. Light refreshments will be available and then take your new friends out to see the College Station sites. Don’t miss out on the fun!

---

**WEDNESDAY, OCTOBER 28**

**“Meet the Astronauts” Grand Finale Plated Lunch & Student Poster Awards**
*Bethancourt Ballroom (2300), Memorial Student Center*

Join us and noted Astronauts Bonnie Dunbar and Greg Chamitoff for a grand finale plated lunch. Here you can meet and greet with America’s Hero’s. Student poster competition awards will also be handed out with the help of our astronauts. You don’t want to miss this!
Congratulations to our finalists for the 2015 SES Annual Technical Meeting Student Poster Competition.

PRINTING, COPYING AND FAXING

COPY CORNER AT MSC
(979) 691-2679

Providing faculty, staff and students with b/w and color prints, copying, binding, laminating, scanning and faxing services. Conveniently located in the southwest corner of the MSC, adjacent to Chase Bank.

BANKS AND CREDIT UNION LOCATED NEAR THE TEXAS A&M CAMPUS

Chase Bank and ATM
Located on the MSC first level near the Respect Entrance, the bank features a storefront ATM that is available for use after lobby hours.

Wells Fargo ATM
Located in the first level Respect Lounge area.

Wells Fargo Bank, Northgate Branch
Full Service Retail Office
321 University Drive
College Station, TX 77840
800-432-1000

Bank of America
615 University Dr E (Between MacArthur St and Tarrow St )
College Station, TX 77840
A Wells Fargo ATM is located in the first level Respect Lounge area.

AIRPORT
College Station Easterwood Airport (CLL)
1 McKenzie Terminal Blvd #112, College Station, TX 77845
(979) 775-9900

TRANSPORTATION BETWEEN VENUES

Texas A&M buses will provide free transportation between the conference hotels above and the Memorial Student Center (MSC) for conference attendees. The buses will leave on 10-15 minute intervals Monday and Tuesday between 6:30 a.m.–8:30am and 5:45 p.m.–8:00 p.m. Tuesday night of the Banquet dinner buses will also run from 9:30 p.m.–10:30 p.m. On Wednesday buses will run between 6:30 a.m.–8:30 a.m. and 1:00 p.m.–3:00 p.m. Buses will pick-up/drop off only at the main hotel entrances.

Some hotels have free shuttle services. Please check with the front desk to determine availability. Additionally, one van will be available on an as needed basis for those requiring special transportation between the hotels and the MSC. Please contact registration desk for assistance.

LIMOUSINE/TAXI SERVICE

HUAJIAN GAO
2015 Prager Medalist

HUAJIAN GAO received his bachelor’s degree from Xian Jiaotong University of China in 1982, and his masters and doctoral degrees in engineering science from Harvard University in 1984 and 1988, respectively. He served on the faculty of Stanford University between 1988 and 2002, and as professor and director at the Max Planck Institute for Metals Research in Germany between 2001 and 2006. He is now Walter H. Annenberg University Professor of Brown University.

Professor Gao has a background in engineering science and applied mechanics. His current research interests are focused on nanomechanics of engineering and biological systems, including mechanical properties and behaviors of bone, gecko, cell, protein, DNA, carbon nanotubes, thin films and nanocrystalline materials. He has more than 25 years of research experience with more than 300 publications.
MARY BOYCE
2015 Engineering Science Medalist

MARY C. BOYCE is dean of engineering and Morris A. and Alma Schapiro Professor at Columbia University's Fu Foundation School of Engineering and Applied Science. Prior to joining Columbia, Dean Boyce served on the faculty of Massachusetts Institute of Technology (MIT) for over 25 years, leading the Mechanical Engineering Department from 2008 to 2013. Her research focuses on materials and mechanics, particularly in the areas of molecular and nanomechanics of polymers and soft composites, both those that are man-made and those formed naturally. Her leadership in the field of the mechanics of materials has expanded understanding of the interplay between micro-geometry and the inherent physical behavior of a material, which has led to innovative hybrid material designs with novel properties. Models and results from her group have the potential to influence a range of industrial and academic fields from polymer processing to composite material design, tire mechanics, protective armor designs, and transformative meta-material design. She is well known for her collaborative work and leadership in overseeing research teams that bring together faculty from different departments and universities and is the author of more than 150 archival journal publications with her group.

Dean Boyce has been widely recognized for her scholarly achievements, including election as a fellow of the American Society of Mechanical Engineers, the American Academy of Arts and Sciences, and the National Academy of Engineering. She also has been honored for her teaching at MIT, where she was named a MacVicar Faculty Fellow and received the Joseph Henry Keenan Innovation in Undergraduate Education Award. Dean Boyce earned her bachelor's degree in engineering science and mechanics from Virginia Tech, and her masters and doctoral degrees in mechanical engineering from MIT.
L. GARY LEAL
2015 Taylor Medalist

L. GARY LEAL is the Warren & Katharine Schlinger Professor of Chemical Engineering at the University of California, Santa Barbara. He is known for his research work in the dynamics of complex fluids.

Leal received his bachelor’s degree from the University of Washington in 1965, masters degree from the Stanford University in 1968, and doctoral degree from the Stanford University in 1969; all in chemical engineering.

Leal began his academic career in 1970 as an assistant professor in chemical engineering at California Institute of Technology. He became full professor in 1978. During 1986-1989, he was Chevron Distinguished Professor of Chemical Engineering. In 1989, Leal joined University of California, Santa Barbara as professor and chair in the Department of Chemical Engineering.

Leal’s research covers a wide range of topics in fluid dynamics, including dynamics of complex fluids, such as polymeric liquids, emulsions, polymer blends, and liquid crystalline polymers. He also works on large-scale computer simulation of complex fluid flows. Leal and his coworkers made pioneering contributions to the study of drop deformation under different flow conditions. They have developed a scheme based on a finite difference approximation of the equations of motion, applied on a boundary-fitted orthogonal curvilinear coordinate system, inside and outside the drop.[3][4] Leal has published more than 250 papers on fluid dynamics. He has directed 55 doctoral theses in various topics in fluid dynamics. Several of his students have gone on to become professors at prestigious universities including Howard Stone who is currently at Princeton and Gerald Fuller at Stanford. Leal comes from a long line of researchers that can be traced back from mentor to mentor all the way to Sir Isaac Newton.
LIPING LIU
2015 Young Investigator Medalist

LIPING LIU is an associate professor of Mathematics and Mechanical Aerospace Engineering at Rutgers University, the State University of New Jersey. He is known for his research work in micromechanics and multifunctional composite materials. Liu received his bachelor’s degree from the Beijing (or Peking) University in 2000 and doctoral degree from the University of Minnesota, Twin Cities in 2006 in aerospace engineering. He was a postdoctoral fellow in Division of Engineering and Applied Science at California Institute of Technology in 2006-2008. He began his academic career in 2008 as an assistant professor in Mechanical Engineering at the University of Houston. He moved to a joint position in math and MAE at Rutgers in 2012 and became associate professor in 2014.

Liu's research focuses on mathematics and mechanics of materials. Liu and his coworkers made interesting contributions to the generalizations of ellipsoids in the study of Eshelby inclusion problems under different boundary conditions, rigorous optimal bounds for multiphase composite materials, and modeling of magneto-electro-elastic materials. They have developed some useful techniques to construct analytically solvable microstructures and variational formulations for solving multiscale-multiphysics problems.

### MECHANICS OF NANO SCALE PHENOMENA: SMALL SCALE PLASTICITY (6a)

**ROOM 2505**  
**SESSION CHAIR: John L. Bassani**

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 2:00 p.m.–2:20 p.m. | **On the Relationship Among Lattice Miscorrelation Field, Strain Gradient Effects, and Indentation Size Effects**  
**Yanfei Gao, University of Tennessee and Oak Ridge National Laboratory; Lucia Nicola, Delft University of Technology; Bennett C. Larson, Oak Ridge National Laboratory; and George M. Pharr, University of Tennessee** |
| 2:20 p.m.–2:40 p.m. | **Thermally Activated Deformation Mechanism in Glasses**  
**Yue Fan, Takuya Iwashita, and Takeshi Egami, Oak Ridge National Laboratory** |
| 2:40 p.m.–3:00 p.m. | **On Size Effects in Single Crystal Wedge Indentation**  
**Christian F. Niordson, Technical University of Denmark** |
| 3:00 p.m.–3:20 p.m. | **Non-localized Deformation in Metallic Glasses with Pre-existing Shear Bands**  
**Shaoxing Qu, Zhejiang University** |
| 3:20 p.m.–3:40 p.m. | **Deformation-Induced Microstructureal Evolution at Grain Scale**  
**Grethe Winther, Technical University of Denmark** |

### MECHANICS OF FRACTURE AND DAMAGE: FRACTURE MECHANICS (21g)

**ROOM 1402**  
**SESSION CHAIR: Ahmed Elbana**

<table>

Restaurants with Private Space

Abuelo’s Mexican Restaurant
840 University Dr E, College Station
(979) 260-3400

Applebee’s Neighborhood Grill & Bar
200 Texas Ave S, College Station
(979) 260-3003

Atami Steak & Sushi
800 University Dr, College Station
(979) 268-8883

BJ’s Restraunt & Brewhouse
1520 Harvey Rd, College Station
(979) 696-5700

Brauhaus Bavarian Restaurant
109 N Main St, Bryan
(979) 775-4014

Briarcrest Country Club
1929 Country Club Dr, Bryan
(979) 776-0133

Buppy’s BBQ
506 Sulphur Springs Rd, Bryan
(979) 779-6417

C&J Bar-B-Que
1010 S Texas Ave, Bryan
(979) 822-6033

Cafe Capri
222 N Main St, Bryan
(979) 822-2675

Café Eccell
4401 S. Texas, Ave, Bryan
(979) 599-7929

Johnny Carino’s Italian Grill
620 Harvey Rd, College Station
(979) 764-7374

Casa Ole’
3201 Freedom Blvd, Bryan
(979) 776-0994

Cenare Italian Cuisine
404 University Dr E, College Station
(979) 696-7311

Chef Cao’s
404 University Dr E Ste Z, College Station
(979) 696-8383

China King Buffet
2402 Texas Ave, College Station
(979) 694-7959

Christopher’s World Grille
5001 Boonville Rd, Bryan
(979) 776-2181

Chuy’s
1512 Harvey Rd., College Station
(979) 329-6022

Denny’s
607 Texas Ave S, College Station
(979) 694-2544

Fuddruckers
1704 George Bush Dr E, College Station
(979) 696-7142

Golden Corral
700 University Dr E, College Station
(979) 846-8667

Koppe Bridge Bar & Grill
3940 Harvey Rd, College Station
(979) 776-2833

La Riviera Restaurant & Bakery
3700 S Texas Ave Ste 300., Bryan
(979) 846-5913

Longhorn Tavern Steakhouse
1900 E State Hwy 21
(979) 778-3900

Madden’s Casual Gourmet
202 S Bryan Ave, Bryan
(979) 779.2558

Mr. G’s Pizzeria
201 W 26th St, Bryan
(979) 822-6747

Ninfa’s Mexican Restaurant
1700 Earl Rudder Fwy, College Station
(979) 693-0506

Outback Steakhouse
2102 Texas Ave S, College Station
(979) 764-4329

Ozona Grill and Bar
520 Harvey Rd, College Station
(979) 694-4618

Papa Perez Mexican Cuisine
201 S Main St, Bryan
(979) 775-7272

The Corner
401 University Dr, College Station
(979) 268-1406

The Feed Barn
2017 Fountain Ave, Bryan
(979) 822-9488

The Lakeside Ice House at Lake Bryan
8200 Sandy Point Rd, Bryan
(979) 361-0861

The Republic Steakhouse
701 University Dr E, College Station
(979) 260-4120

Veritas Wine & Bistro
830 University Dr, College Station
(979) 268-3251

The Vintage House Restaurant at Messina Hof
4545 Old Reliance Rd, Bryan
(979) 778-9463

Wings ’N More
3230 Texas Ave S, College Station
(979) 694-8966
George Bush Presidential Library & Museum
Open: Monday thru Saturday 9:30 a.m.–5:00 p.m., Sunday Noon–5:00 p.m.
(979) 691-4000

The Museum at the George Bush Presidential Library reveals the unique influences and challenges which shaped George Herbert Walker Bush's life and presidency through artifacts, films, photographs, documents, music and interactive video that create a museum experience that is both educational and entertaining.

Messina Hof Winery & Resort
Open: Monday thru Wednesday 10:00 a.m.–9:00 p.m.; Thursday thru Saturday 10:00 a.m.–1:00 p.m.; and Sunday 11:00 a.m.–6:00 p.m.
(979) 778-9463

Messina Hof is the most awarded and renowned Texas wine in national and international competitions. With tours, festivals, wine seminars, Vintner Dinners and other specialty events, Messina Hof strives to unite the excellence in wine production with excellence in education and entertainment. Unparalleled wine and food pairing efforts have helped to make choices easy for the casual wine drinker. Messina Hof can also serve as a unique and beautiful location for a private event. Whether the occasion is a wedding, luncheon, meeting, corporate gathering, the amenities abound at Messina Hof. The winery offers wine tours and tastings daily, vineyard cuisine at the award-winning Vintage House Restaurant and luxurious overnight accommodations at The Villa, voted the most romantic Bed & Breakfast in the U.S.

Bonfire Memorial
Polo Fields Open: From Dawn until Dusk; Admission is FREE.

The Bonfire Memorial is dedicated to the 12 Aggies who lost their lives in the tragic collapse of the 1999 Bonfire. It celebrates the tradition and history of Texas A&M and is comprised of the Tradition Plaza, Spirit Wall and History Walk.
The University of Maryland hosts the 53rd Annual Technical Meeting of the Society of Engineering Science (SES), Fall 2016

The SES Technical Meeting is held annually to foster and promote the exchange of ideas and information among the various disciplines of engineering and the fields of physics, chemistry, mathematics, bioengineering, and related scientific and engineering fields.

The 53rd SES Technical Meeting will be hosted by the University of Maryland (UMD) October 4-7, 2016 at the College Park Marriott Hotel & Conference Center.

UMD is located in College Park, Maryland, right on the doorstep of Washington, D.C., and is readily accessible from three major airports (IAD, DCA, and BWI). In addition, nearby Metrorail provides easy access to Washington D.C. and area attractions.

UMD is the state’s flagship university, and is one of the premier research institutions in the United States and in the world. UMD has longstanding research strengths across a broad array of disciplines, and supports research addressing the most serious global challenges we currently face.

Focus areas for SES 2016 include:

- Mechanics of materials in extreme environments
- Mechanics of integrated structures: MEMS/NEMS, ICs, and electronic packaging
- Mechanics and materials in advanced technologies: energy harvesting and storage (batteries, super-capacitors, PV), flexible/stretchable electronics, and organic electronics
- Mechanics of 1D/2D materials and derivatives: nanowires, nano/micro-fibrillates, thin membranes, multilayers, and low dimensional origami
- Multifunctional materials in response to mechanical, chemical, electrical, and thermal stimuli
- Mechanics and materials in advanced manufacturing: additive manufacturing, fiber and textile, lithography, DRIE, and self-assembly
- Degradation, damage and fracture mechanics, reliability, prognostics and health management
- Meso-/micro-/nano-mechanics of defects and interfaces in materials
- Materials genome: multiscale modeling and experimentation of material behavior
- Interface topics between biology and engineering: biomechanics of soft tissues, cells, vesicles, subcellular structures and bio-molecules, bio-mimetic materials, bio-medical materials and devices
- Fluid mechanics, micro-fluidics, nano-fluidics, and fluid-structure interactions
- Mechanics in robotics: soft machine and robots, micro-robotics, nanobots, haptics, and bio-mimetic robots
- Experimental and computational nonlinear dynamics and control
- Structure and material optimization under uncertainty
- Engineering education and innovation

Local Organizing Team

Helim Aranda-Espinoza, Bala Balachandran, Inderjit Chopra, Nikhil Chopra, Peter Chung, Abhijit Dasgupta, Don DeVoe, Alison Flatau, Liangbing Hu, Ken Kiger, Sung Lee, Teng Li, Yifei Mo, Chunsheng Wang, Yunfeng Zhang
